Problem Statement

People go out to dinner to enjoy themselves with friends and family and when the time comes to divide the check, people do not know how to do it between them without it causing confusion.

Who is experiencing the problem?

People who go out to dinner with friends and family and want to divide the check between all members or groups.

What is the Problem?

People cannot divide the check after dinning with friends or family.

Where does the problem present itself?

Usually after dinner when the check arrives, and everyone offers to pay

Why does it matter?

It can hold up the restaurant from cleaning the table which can hold up the line to get seated and can cause more work for the workers.
